

## MOBILE. ROBUST. EASE OF USE.

The CALDER **TURN-AROUND-TESTER™** can efficiently perform a wide variety of pressure tests and can be easily transported to and used on job sites.

### MOBILE

**Compact size** allows for transport and use in the bed of a truck or in confined spaces.

**Clamp fixture and console paired in one frame** keeps everything you need together during transport or on the job site.

**Convenient rigging points and frame designed for forklifts** provide for easy lifting.

**Conforms to specified API-598** and allows operator to perform hydrostatic valve testing in non-traditional environments.

**Only shop air and water needed** for functionality.

### ROBUST

**All parts are designed to work at specified maximum testing pressure** which allows you to perform all your tests with confidence.

**Heavy-duty frame and console walls** built with 12 ga steel protect internal components from damage and allows for use in an industrial environment.

**ISO 9001 certified** ensures manufacturing to the highest quality standards.

**CE certified** for use in the European Union or any country where CE certification is required.

**Safety interlock** will not allow the operator to release the hydraulic clamp pressure while the valve under test is pressurized.

### EASE OF USE

**Intuitive control panel layout** makes performing a test procedure efficient and easy on the operator.

**Extensive operating manual** contains easy to follow test procedures.

**Quick-connect test pressure gauges** can easily be removed for the quick calibration or removal of gauges.
